

Lime Dosage Machine

With this machine we have created a machine that provides stable dosage, at small as well as large quantities and which is nearly independent of lime amount and quality.

The machine is constructed in a way that ensures high reliability as well as low maintenance.

Technically data:

Tank sizes	200 or 300 litres.
Length:	1000 mm
Width:	750 mm
Height	1100 mm
Weight:	about 140 kg
Dosage quantity:	0.5 too 20 kg per. hour
Max power consumption:	400 W
Voltage:	230 or 400 volt
Extra equipment:	the lime dosage machine can be supplied with speed regulation, PH and temperature control.
